## Spanish Club

**Course Description:** The club is tailored to those currently taking Spanish, and want to develop their language abilities among their peers. We are privileged to have several of our students fluent in Spanish from Colombia who will be leading the class. The class setup will alternate weeks between Spanish and English where your students can help them learn English while they help your student(s) learn Spanish. The focus age group is 7th grade and up. The class will be split into small groups, so students can get to know their classmates while learning Spanish. The club is an excellent opportunity to be global citizens as Charlotte Mason described.

**Course Design:** The students will have live weekly meetings on Zoom. Class participation via discussion boards and the schedule will all be accessed through the free Canvas platform. Each student will need an email account to register. You can register using a parent's email account, but the student will need it to access the course. If registering with more than two children there will need to be two email accounts one for each student.

**Course expectations:** Students are expected to attend the club regularly, be attentive, and contribute to the class discussion. We have a limited number of spots, so please make sure this is the club that your student is interested in and has a passion to pursue. Students should be mature enough to be trusted to work independently in their groups when split into separate groups on Zoom. The instructor cannot be in every group each week, so please be cognizant of that.

**High school credits:** This will be a great resource to add to your child's transcript as a club in their list of activities.
